Quick-Sling® is revolutionizing the way HVAC/R systems are installed. Most Quick-Sling® mounting systems come partially assembled and some can be installed in as little as 5 minutes, saving hours of labor time and unneeded part costs! Offering unmatched installation flexibility, Quick-Sling® products provide superior protection and safety for all types of HVAC/R equipment, including condensing units, heat pumps and mini-splits.

Quick-Sling® product lines are OEM recommended, manufactured in the U.S.A. and patented for their quality engineering. Developed by an HVAC contractor for HVAC contractors, these innovative products meet federal, state and local building and safety codes. Many of the stands and brackets are hurricane-approved by the Florida Building Commission.

If you're ready to save money, time and headache, turn to Quick-Sling® for your mounting system solution. There's nothing like it and nothing better.

MINI-SPLIT MOUNTING SOLUTIONS

The Quick-Sling® line of Mini-Split Stands and Brackets is engineered to provide a safe and stable platform to mount virtually any outdoor mini-split condensing unit or heat pump unit. Elevating valuable equipment protects it from damage caused by lawn mowers, pets, snow and flooding. It also makes installation and maintenance faster and easier. The full line of products includes Mini-Split Stands and Mini-Split Wall Brackets.

MINI-SPLIT STANDS

The Quick-Sling® Mini-Split Stands come partially assembled, are available in three heights and are adjustable to match the needs of most any installation.

ALSO AVAILABLE IN
STAINLESS STEEL

HEIGHT	MOUNTING HOLE DEPTH			
	8" - 12-7/8" Thin	11-1/2" - 17-1/8" Wide	15" - 25-13/16"	15" - 25-13/16" (3 Mounting Arms)
12"	QSMS1200	QSMS1201, QSMS1201-SS	QSMS1204	QSMS1205
18"	QSMS1800	QSMS1801, QSMS1801-SS	QSMS1804	QSMS1805
24"	QSMS2400	QSMS2401, QSMS2401-SS	QSMS2404	QSMS2405

SS = Stainless Steel option

FEATURES

- Made from strong 14-gauge square tubing capable of supporting up to 400 lbs
- Available in three heights to match the application requirements
- Thin and wide versions of each height provide a perfect equipment match
- 50 Durometer rubber pads are pre-installed on each foot to reduce vibration
- Each stand comes with "Hat Channel" mounting arms slotted to fit most all outdoor mini-split units
- All necessary hardware included

DUAL FAN MINI-SPLIT STANDS

The Quick-Sling® Dual Fan Unit Stand is designed to be extra stable to accommodate the taller dimensions of a dual fan outdoor condensing unit.

MODEL NUMBERS

12"	QSMS1202
18"	QSMS1802
24"	QSMS2402

FEATURES

- Available in 12", 18" or 24" heights
- 18" and 24" high stands come with additional stabilizer arms
- Made from strong 14 gauge square tubing and 11 gauge steel capable of supporting up to 400 lbs
- 8 Points of vibration isolation

DOUBLE STACK MINI-SPLIT STAND

The Quick-Sling® Double Stack Mini-Split Condensing Unit Stand mounts two single fan mini-split condensing units one above the other. This allows for two systems to only take up the foot print of a single system, reducing the overall installation space required.

MODEL NUMBERS

12"	QSMS1203
-----	----------

FEATURES

- Made from strong 14 gauge square tubing capable of supporting up to 400 lbs
- Each 6" x 6" foot is made from 11 gauge steel and is adjustable up to 1.25" in height
- Four 3/8" holes allow the stand feet to be easily secured to any surface
- Additional carriage bolt hole allows for a reduction in footprint to 34-1/16"
- 50 Durometer rubber pads are pre-installed on each foot to reduce vibration
- Rubber washers are provided to create four points of anti-vibration isolation for each mounting shelf
- Each stand comes with two offset mounting arms slotted to fit most all single fan outdoor mini-split units. The offset mounting arms allow heat pumps to be staggered to ensure the top unit does not drip on the bottom
- All necessary hardware is included
- Holds total of 600 lbs - 400 lbs on the bottom shelf and 200 lbs on the top shelf

PITCHED ROOF BRACKET

The pitched roof bracket provides a strong & stable platform to mount as outdoor mini-split unit to a sloped roof.

FEATURES

- Made from electro-galvanized powder-coated steel
- Mounting hardware and level included
- Adjustable to from 9° - 45° roof pitch

MINI-SPLIT MULTI-UNIT SUPER STANDS

The Quick-Sling® Mini-Split Multi-Unit Super Stand accommodates up to six outdoor mini-split condensing units on a single stand. With the addition of the extender kits condensing, units can be added in increments of two per kit.

HEIGHT	BASE STAND	EXTENDER KIT
12"	QSMS3001-12	QSMS3001-12EXT
18"	QSMS3001-18	QSMS3001-18EXT
24"	QSMS3001-24	QSMS3001-24EXT

FEATURES

- Constructed of 1.5" 11 gauge steel tubing and 11 gauge steel rails
- 12" x 12" 7 gauge feet for ground or roof mounting
- Two 1/2" holes in each foot to secure the stand
- Available in 12", 18" and 24" heights

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

MINI-SPLIT WALL BRACKETS

The Quick-Sling® line of Wall Brackets provides a quick, safe and stable means to mount an outdoor mini-split unit to multiple types of wall structures. Designed to allow the equipment manufacturer's recommended clearance for proper airflow.

QSWB1000

Heavy Duty, Flat Wall
Mounting Bracket

FEATURES

- Made from powder coated 11 gauge steel square tubing
- 500 lbs load capacity
- Four points of anti-vibration with 50 Durometer rubber washers
- Includes galvanized mounting hardware
- The QSWB1000 "L" brackets can be mounted in either the up and out or down and out orientation
- Mounting shelf is 26" in depth and pre-slotted for quick unit mounting

WALL TYPE	WEIGHT CAPACITY	ITEM NUMBER
Flat Wall	500 lbs	QSWB1000
Siding	350 lbs	QSWB2000
Siding	500 lbs	QSWB4000
Foundation	300 lbs	QSWB3000

QSWB1100

Heavy Duty, Flat Wall or Wall
Stud Mounted Bracket

FEATURES

- Made from powder coated 11 gauge steel square tubing
- Includes two slider mounting tracks for mounting to standard wall studs
- 500 lbs load capacity
- Four points of anti-vibration with 50 Durometer rubber washers
- Includes galvanized mounting hardware
- The QSWB1000 "L" brackets can be mounted in either the up-and-out or down-and-out orientation
- Mounting shelf is 26" in depth and pre-slotted for quick unit mounting

QSWB2000/QSWB4000

Flat or Siding Wall Mounted
Bracket

FEATURES

- Made from powder coated 14 gauge steel with 350 lbs load capacity
- Six points of vibration isolation with 50 Durometer rubber washers
- Adjustable to 34" in width
- All necessary hardware included
- QSWB4000 is made from 11 gauge steel and can hold up to 500 lbs
- Both models are available in stainless steel (QSWB2000SS / QSWB4000SS)
- Hurricane rated Wall Brackets

QSWB3000

Concrete Foundation
Mounted Bracket

FEATURES

- Made from powder coated 11 gauge steel square tubing
- 300 lbs load capacity
- Four points of anti-vibration with 50 Durometer rubber washers
- 19" shelf depth, plus 7" of clearance from Z bend allows ample space between wall and equipment
- Reduces potential vibration through walls

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

DUCTLESS CASSETTE HANGERS

The New Ductless Cassette Hangers are an innovative bracket design that is made of lightweight aluminum to provide quick and easy installation of ductless cassettes. Only two skus are needed to be compatible with most of the ductless cassettes on the market today. The built-in adjustability allows the alignment of the unit after it has been hung.

SIZE	ITEM NUMBER	WEIGHT CAPACITY
Small	QSCH1000	200 lbs
Large	QSCH2000	200 lbs

FEATURES

- Lightweight Aluminum Construction
- Strong enough for large cassettes
- Adjustable position after installation
- Hardware included
- Only 2 part numbers needed to match most all the cassette manufacturers on the market today.

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

VRF/VRV SUPER STANDS

The Quick-Sling® Super Stands® are designed to provide a strong and stable mounting platform for most all brands of VRF/VRV outdoor units. Super Stands® come partially assembled to make installation quick and easy. Most all application configurations can be accomplished with only 9 single unit base item numbers and 9 extensions item numbers making selecting the correct stand quick and easy.

SLIDING RAIL DESIGN

EXTENSION KIT

MOUNTING SLOTS

FEATURES

- Main supports are made from 11 gauge, 1½" steel square tubing.
- Super Stands are modular and can accommodate a single unit or multi-unit configurations.
- Super Stand Feet are 12"x12" 7-gauge steel with 3/8" holes for optional mounting
- Capable of being installed on rubber roofs for non-penetrable applications or secured to roof structure when required.
- Available in 12", 18" or 24" heights
- Adjustable depth and mounting slots will fit most all equipment mounting holes configurations.
- Super Stands are approved by the Florida Building Commission for use in High Velocity Hurricane Zones.
- Three cross rail sizes allow for hundreds of unique size combinations to meet most any application need.
- The online product selector tool provides quick equipment compatibility matches as well as access to drawings and documentation.
- The Quick-Sling® mobile app enables convenient access to documentation drawings and product selection tool as well as other job site management tools.
- Optional Snow Hoods are available for select brands.

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

AIR HANDLERS

VERTICAL AIR HANDLER STANDS

Quick-Sling® Vertical Air Handler Stands are built strong and stable and are adjustable to fit most all manufacturers products.

ARM WIDTH	12" STAND HEIGHT	18" STAND HEIGHT	24" STAND HEIGHT
19"	QSTD4000	QSTD5000	QSTD6000
23"	QSTD4001	QSTD5001	QSTD6001
27"	QSTD4002	QSTD5002	QSTD6002

FEATURES

- Adjustable left to right in 1" increments up to 6"
- The 18" and 24" stands include 2 stabilizer arms for additional support.
- Each stand has a 500 lbs load capacity.
- Each 11 gauge 6" x 6" foot has predrilled holes to accept 1/4" hardware to mount to supporting structure.
- Stand is constructed of 14-gauge square steel tubing.

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

HORIZONTAL AIR HANDLER STANDS

The QSTD horizontal air handler stands provides faster installation and accomodates a drain pan (not included).

VERSION	ITEM NUMBER	WEIGHT CAPACITY
Standard Duty	QSTD1000	500 lbs
Light Duty	QSTD2000	300 lbs

FEATURES

- Standard Duty Stand is adjustable in 3 directions. Made of 14 gauge steel and can hold 500 lbs.
- Light Duty Stand has wire hangers to hold a drain pan and is 12" tall & 36" wide. Adjustable length from 32" to 48".

HANGING BRACKETS

The original Quick-Sling® Hanging Bracket provides a quick, safe and solid platform to mount air handlers and furnaces.

APPLICATION	WEIGHT CAPACITY	ITEM NUMBER
Standard Duty	400 lbs	QSLG2000

FEATURES

- Solid, 14 ga steel square tube construction
- Custom mounting hardware included
- 400 lbs Max Capacity
- Stable, non-swinging platform
- 3-dimensional adjustment
- Includes Vibration Isolation pads and washers

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

UNIT HEATER SWIVEL BRACKETS

The Quick-Sling® line of Unit Heater Swivel Brackets are uniquely designed to provide fast and easy installation of most all ceiling mounted Unit Heaters. The innovative swivel design allows for 360° rotation for setting the perfection air flow direction prior to hard piping the unit. Multiple ceiling mounting options adapt to various installation applications.

UNIT HEATER SWIVEL “U” MOUNT W/“H” OR “I” BRACKET

FEATURES

- “U” Ceiling mount installs on flat or pitched roofs and installs as high as 19.5” or as low as 27.5”
- QSWI1000 comes with two equipment mounting arms for 4 point mounting configuration
- QSWI2000 comes with a single equipment mounting arm for a 2 point mounting configuration
- Hanging arms attach to wood using 2 zip screws & a 4” through bolt for security. Optional steel beam adapters are also available.
- Each extension arm individually adjust in 1” increments
- Constructed from 14 gauge steel
- 200 lbs capacity

QSWI1000/QSWI2000

w/“H” Bracket (QSWI1000)
w/“I” Bracket (QSWI2000)

UNIT HEATER SWIVEL FLUSH MOUNT W/“H” BRACKET

FEATURES

- 12 points of anti-vibration isolation
- Flush Ceiling mount installs on flat roofs and is slotted to receive 3/8” lag bolts at either 16” or 24” on center.
- Can be mounted either parallel or perpendicular to joist.
- QSWI3001 comes with 36” spreader plate and 36” equipment connection arms and able to hold up to 200 lbs. Perfect for most ducted air handlers.
- QSWI3002 comes with a 17” spreader plate and 36” equipment connection arms and able to hold up to 200 lbs
- Constructed from 14 gauge steel
- 200 lbs capacity

QSWI3000/QSWI3001/QSWI3002

Unit Heater Swivel Flush Mount
w/“H” Bracket

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

UNIT HEATER SWIVEL FLUSH MOUNT HEAVY DUTY W "I" BRACKET

FEATURES

- Heavy duty mounting plate is designed to fit most large unit heaters up to 400 lbs.
- Flush Ceiling mount installs on flat roofs and is slotted to receive lag bolts at either 16" or 24" on center.
- Can be mounted either parallel or perpendicular to joist.

QSWI5000

Unit Heater Swivel Flush Mount
Heavy Duty w/"I" Bracket

BRANCH CIRCUIT CONTROLLER SWIVEL FLUSH MOUNT W 2 "I" BRACKETS

FEATURES

- Dual flush mounts with "I" bracket.
- Flush ceiling mount installs on flat roofs and is slotted to receive 3/8" lag bolts at either 16" or 24" on center.
- Can be mounted either parallel or perpendicular to joist.
- 400 lbs capacity

QSWI6000

Swivel Flush Mount
w/2 "I" Brackets

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

BOILER/TANKLESS WATER HEATER BRACKETS

The Quick-Sling® Boiler Bracket is compatible with most wall hung boilers and tankless water heaters.

WALL TYPE	WEIGHT CAPACITY	ITEM NUMBER
Floor	350 lbs	QSBB4000
Wall	350 lbs	QSBB3000

QSBB3000

QSBB4000

FEATURES

- Flexible mounting options
- Adjustable to fit most wall mounted boilers/tankless water heaters
- Made from strong powder-coated steel
- Partially assembled to make installation fast & easy

ACCESSORIES

ROOF BRACKETS

The Quick-Sling® Roof Bracket mounts to a QSWB3000 or the QSMS1200, 1201, 1202, 1800, 1801, 1802, 2400, 2401, 2401 and protects the equipment from snow and freezing rain.

QSRB1000

FEATURES

- Designed to ensure proper airflow around equipment
- Roof made from durable, UV protected twin wall plastic
- Constructed of powder coated 14 ga steel
- Assembles in minutes

QUICK-SLING® WEATHERSHIELD™ ROOF COVER

The Quick-Sling® WeatherShield™ shields and protects outdoor ductless condensing units from weather damage. Quick-Sling® WeatherShield™ mounts directly to the mini-split and fits most sizes of equipment.

QSW1000

FEATURES

- Mounts directly to the outdoor unit
- Mounting hardware included
- Adjustable to fit the most popular mini-split sizes
- Quick and easy to install
- Strong, UV protected roof material

Compatibility: Visit quicksling.diversitech.com for equipment compatibility selection tool.

H-FRAME KITS

FEATURES

- Ideal for supporting ducts, pipes and electrical equipment.
- Kits include a pair of feet, brackets and hardware.
- 12.6" or 19.7" square feet available.

	ITEM #
H-Frame Kit - 12.5" foot	F-HF-320
H-Frame Kit - 19.7" foot	F-HF-500

STEEL BEAM ADAPTERS

The Quick-Sling® steel and wood adapters make it easy to mount the Quick-Slings on wood joists.

QSAC1100/QSAC1000

FEATURES

- Made of aluminum and able to hold up to 250 lbs each
- Slotted to receive 3/8" threaded rod or C-Clamps
- Designed to overcome the obstacle of attaching to steel beams.
- All necessary hardware is included.

	QTY OF 2	QTY OF 4
Steel Beam Adapters	QSAC1100	QSAC1000

ANTI-VIBRATION PADS

DiversiTech's line of Anti-Vibration Pads provide noise, shock and vibration isolation generated by mechanical equipment. Multiple design options are available to match specific application needs.

PRODUCT	PSI CAPACITY	SIZE RANGE	MATERIAL	AVAILABLE THICKNESSES
EVA	50	2 in. x 2 in. - 18 in. x 18 in.	Composite Foam and Styrene Butadiene Rubber	7/8 in.
Iso-Cube	180	2 in. x 2 in. - 18 in. x 18 in.	Natural Rubber	3/4 in.
Rubber	50	2 in. x 2 in. - 18 in. x 18 in.	Natural Rubber	3/8 in.
Rubber/ Cork	50	2 in. x 2 in. - 18 in. x 18 in.	Natural Rubber and Cork	7/8 in.

E.V.A. ANTI-VIBRATION PADS

The latest generation in vibration dampening technology. The most effective vibration dampening pad available on the market. The E.V.A. Pad was tested against other pads at four different vibration settings. In the most severe vibration extremes, the E.V.A. Pad outperforms cork and rubber by a margin of greater than 3:1! This is due to the special composite foam center which is much more structurally sound than cork. It is not affected by oils or chemicals that can break down cork and is much more effective at vibration dampening than solid rubber. All this at a very competitive price, designed to withstand 50 PSI.

MP-2E

FEATURES

- E.V.A. outperforms cork & rubber 3:1
- Special composite foam center is structurally more sound than cork
- Not affected by oils or chemicals that break down cork
- More effective at vibration dampening than solid rubber

ISO-CUBE ECONOMY ANTI-VIBRATION PADS

ISO-2

FEATURES

- Natural rubber pads designed to reduce vibration & noise emanating from refrigeration or AC systems
- Circular design creates suction cup effect reducing the need to bolt the pads down
- The 50 Durometer pads will withstand a load of 150 PSI

Natural rubber pads, designed to reduce vibration and noise emanating from refrigeration and air conditioning equipment. The circular design in each pad offers a suction cup effect, which eliminates the need to bolt the pads down. A standard 18" (46cm) pad is divided into eighty-one 2" (5cm) segments, each of which may be cut or torn to provide smaller pads. These 50 Durometer pads will withstand a load of 180 PSI with greater resiliency.

CATALOG NUMBER	DESCRIPTION	STD. PACK

DUCTED SPLIT SYSTEMS

DiversiTech offers the industry’s widest selection of pads for HVACR equipment and various other types of equipment. Plastic, concrete and anti-vibration pads are available.

Proven – We made our name in the industry as the premier supplier of HVAC equipment pads over four decades ago and we continue as the market leader today.

All Types – We have all sizes of pads in all forms to meet your exact needs, the widest selection in the industry by far!

Durable – Proven durability with each pad uniquely engineered using different ribbing patterns, thicknesses and depths, as well as base materials for maximum strength and minimum weight.

Simple – Installing DiversiTech pads is easy! Simplify your work!

FEATURES

- High PSI strength concrete surrounding a lightweight core
- Up to 80% lighter than solid concrete for ease of installation
- Freeze/thaw, UV, chemical & flame resistant for long-term life outdoors
- ASTM D2299, ASTM C67
- Extensive selection of sizes available including round pads

FEATURES

- Heavy-duty yet ultra-lightweight
- Freeze/thaw, UV, chemical & flame-resistant for long-term life outdoors
- Earthquake Code compliant pads available for use in the relevant West Coast locations
- ASTM D2299, ASTM C67
- Extensive selection of sizes available including wedge-shaped pad

HEAT PUMP PAD

Ideal for snowy climates, the Heat Pump Pad protects the unit with a full 8" clearance above ground. Standard with each unit are 8 anti-vibration pads specifically designed to fit into molded slots at tops of the Heat Pump Pad. These are designed to provide a more quiet operation of the heat pump.

CATALOG NUMBER	SIZE (IN.)	ESTIMATED ALLOWABLE LOAD	QUANTITY PER PALLET	PAD WEIGHT
HP3232-8	32x32x8	307 LBS	16	18 LBS
HP3636-8	36x36x8	389 LBS	16	18 LBS

FEATURES

- Pad base is angled outward to direct melting snow and condensate away from the unit
- Built tough for many years of surface
- Pads are nestable and stackable for using minimum space for storage

NOTES

DiversiTech Corporation is North America's largest manufacturer of equipment pads and a leading manufacturer and supplier of components and related products for the heating, ventilating, air conditioning, and refrigeration (HVACR) industry.
