

## 230-DL16

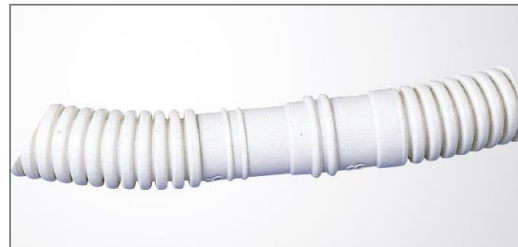

*Mini-Split Drain Line Hose*

### Application:

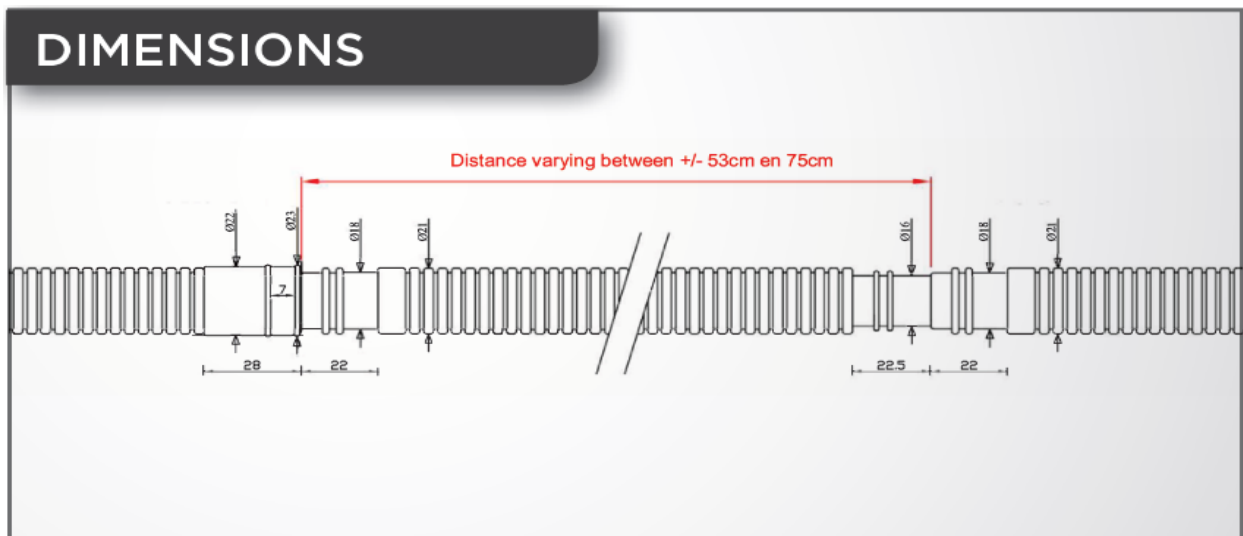

For drainage of air conditioning condensation water (without pressure). We recommend installing the drain pipe inside of a line set cover.

Connects to 16mm, 18mm and 20mm diameter air conditioning condensation outlet adapters. Cut marks between connections.

UV Stabilized PELD

### DIMENSIONS

Minimum 32°F to Max 120°F

Recommend only temperatures above freezing to avoid ice formation in the drain line which could cause damage.
