Super Change™ /Super Change™ Inject

Flushing and System Conversion Solutions

Application

Super Change™ in a can and Super Change™ Inject allows professional HVAC/R contractors a fast and easy way to convert a system from non-POE based oils and refrigerants such as R22 to newer HFC refrigerants including POE-based R407C and R410A without the need to flush the system (excluding compressor burnouts). By adding Super Change with the new refrigerant and oil, a chemical link is created between the old and new oil, thus avoiding a full flush and saving contractors significant time on a system changeout. Ideal for dry charge units, retrofits, and drop-in refrigerants. One Super Change in can (20122 reusable hose required) or Super Change Inject can treat systems up to 6 tons.

CATALOG#	DESCRIPTION	UOM	ORDER MULTIPLE	LIST PRICE
981	Super Change - Up To 6 Tons - cans	EA	6	\$129.92
991	Super Change Inject - Up To 6 Tons - tube	EA	4	\$205.08
20122	Universal Clear Charging Hose	EA	1	\$30.52
