

INSTALLATION INSTRUCTIONS

- 1 Use your battery drill.
- 2 Slip a Zip-Ez™ all-purpose fastener over a screw.
- 3 Shoot it through with your drill.

Note: Extreme over-touquing may cause cracking over time.

Zip-Ez™ For Installing Duct Wrap

- 1 To install duct wrap or fiber-free insulation with Zip-Ez™, wrap the ductwork or wrap around the trunk duct
- 2 Leave a 2" overlap where the ends meet.
- 3 Secure with Zip-Ez™ fastener, covering the overlapping edges.
- 4 For the best results, use Zip-Ez™ all-purpose fastener every 8-12 inches. This will secure the wrap permanently!

Note: For wrap thicker than 1.5", use Zip-Ez™ face down.

INSULATION FASTENERS

For Duct Wrap, Reflective Insulation and More!

The fast, easy, permanent, professional, revolutionary way to attach duct wrap and reflective insulation!

Lightning Fast & Easy To Use

Zip-Ez™ all-purpose fasteners' unique design gives you fast and easy one-handed installation. You don't need any special tools to use Zip-Ez™ fasteners.

Permanent Holding Power

Zip-Ez™ fasteners are more permanent than just tie-wire, duct tape. Zip-Ez™ mechanically secures duct wrap, fiber-free reflective insulation, using a sheet metal screw. Zip-Ez™ all-purpose fasteners won't lose bonding properties in extreme hot or cold temperatures. *Don't rely on tape or staples alone.*

They Pay for Themselves!

Zip-Ez™ all-purpose fasteners, because of their ease of use, saves your company hours of installation time on each job. It's proven using Zip-Ez™ will save you money!

Professional Appearance

Zip-Ez™ fasteners will give your installations a neat, more professional appearance.

Multiple Uses

Use Zip-Ez For Attaching Flex Duct Strapping

Nothing Compares!
