

## The Black Pad<sup>®</sup> Plastic Equipment Pad

### Description

The Black Pad<sup>®</sup> is a polypropylene plastic mounting pad designed to support pool pumps, pool filters, and pool heaters. These pads are a great environmentally friendly alternative to concrete equipment pads, thanks to the recycled content and low raw material usage when formed. The rugged design and uniform rib-pattern provide for excellent support on soil and gravel terrain. Available in both 2" and 3", depending on local building code requirements.

### Application

- Pool pumps, filters, and heaters
- Installation: pad should be placed on compacted level soil, gravel, or harder surfaces, including but not limited to concrete or asphalt.

### Features
